Exposing a Massive and Diverse Portfolio of "Tax Forms" Themed

Malware and Blackhat SEO Serving Domains (2020-12-12 04:22)

Dear blog readers,

I’ve decided to share a massive and diverse portfolio of rogue and potentially malicious domains portfolio utilized by cybercriminals while participating in a blackhat SEO tax forms themed rogue and malicious software serving campaigns circa 2008.

In this post I’ll provide actionable intelligence on the infrastructure behind it and discuss in-depth the tactics techniques and procedures of the cybercriminals behind it.

Sample portfolio of rogue and malicious tax forms themed domains portfolio currently in circulation circa 2008:

-- Introduction --

Hi, this is a shitty example of ransomware, If somebody doesn't know what a ra
is I will explain it.
Basically a ransomware is a malware that makes something of evil to the user's
for example it can delete files or encrypt them.
The user can avoid this sending something to the author of the malware, a "ran
get back his files.

Exposing Modern Client-Side Exploits Serving Kits - An AV and Snort IDS MD5 List

Compilation - Part Seventh (2020-12-12 04:22)

[1]

Dear blog readers,

This is the seventh post part of my "[2]Exposing Modern Client-Side Exploits Serving Kits - An

AV and Snort IDS MD5 List Compilation - Part Six" blog post series where I intend to share

actionable threat intelligence with vendors and organizations with the idea to assist them in

protecting their networks and the networks of their clients and customers.

In the seventh post part of the series I intend to provide additional MD5s for some of the high-

profile and currently popular and in circulation hacking tools with the idea to assist vendors

and organizations on their way to properly protect their infrastructure and the infrastructure of

their clients and customers.

Sample MD5s for some of the currently active hacking tools currently circulating in the wild:

DNS Resolution Comparison

Dear blog readers,

I've decided a diverse portfolio of fast flux name servers which basically act as a bulletproof

botnet C &C communication technique allowing the cybercriminals behind the campaigns to

increase the average time for which their campaigns remain online.

In this post I'll provide actionable intelligence on the infrastructure behind a network of fast-flux

servers circa 2008 and discuss in-depth the tactics technique and procedures of the cybercrim-

inals behind these campaigns.

Sample fast-flux name servers involved in various campaigns circa 2008:

U.S Justice Department Releases "Legal Considerations when Gathering Online Cyber Threat Intelligence" - Where’s the Meat? (2020-12-13 05:59)

[1]

Surprise, surprise! The U.S DoJ has recently released a detailed "[2]Legal Considerations when Gathering Online Cyber Threat Intelligence" guide which aims to educate security practitioners on their way to gather threat intelligence and how to actually utilize the information to further assist U.S Law Enforcement on its way to track down and prosecute the cybercriminals behind these campaigns.

What the paper basically explains is the basics of passive OSINT however it also includes a detailed explanation on the actual use of cybercrime-friendly forums to gather threat intelligence potentially signaling a "bad taste" trend further enticing users into joining these forum communities potentially contributing to the overall increase of cybercrime internationally.

What should be taken clearly into consideration in terms of possible recommendations for this research guide is that it doesn’t take to become a cybercriminal in order to catch a cybercriminal and that on the majority of occasions the majority of information required to launch an investigation into the whereabouts of high-profile cybercriminals is actually publicly accessible.

Users who are interested in joining the world of threat intelligence gathering should consider going through my "[3]The Threat Intelligence Market Segment - A Complete Mockery and IP Theft Compromise - An Open Letter to the U.S Intelligence Community" post including to actually join forces in my currently ongoing Law Enforcement and OSINT operation called "Uncle George" where the idea is to obtain a direct download copy of my "[4]Cybercrime Forum Data Set for 2019" and participate in the actual enrichment and analysis of the forum communities for the purpose of assisting U.S Law Enforcement on its way to track down and prosecute the cybercriminals behind these forum communities.

Historical OSINT - International Institute For Counter-Terrorism Serving Malware - An Analysis (2020-12-13 05:59)

The International Institute For Counter-Terrorism is known to have served malicious software

to its targeted user base back in 2013.

In this post I'll provide actionable intelligence behind the campaign and discuss in-depth the

tactics technique and procedures of the cybercriminals behind it.

Sample malicious software client-side exploits serving chain:

In this post I’ll provide actionable intelligence on some of the currently active publicly accessible IPs which are known to have been hosting publicly accessible web shells for the purpose of empowering the cybercriminals behind the campaigns to establish a direct connection with the server in question potentially resulting in a direct compromise of the server which could further assist in the ongoing monetization of the access for the purpose of hosting blackhat

SEO content including malicious software on the compromised server.

Sample known IPs known to have hosted publicly accessible Web shells circa 2013:

[redacted]

Повод за настоящата хоспитализация: Постъпва за пръв път
психиатричен стационар и до настоящия момент не е ползва
специализирана психиатрична помощ. Доведен с Преписка на РУ
МВР – Троян.

По данни от родителите промяната в поведението датира о
началото на месец юли, когато заминал да живее сам на квартира
София. През първия месец поддържал ежедневна връзка с тях п
телефона, но след това спрял да се обажда. На позвънявания от тяхн
страна не отговарял или изключвал телефоните си. Това ги притеснило
те започнали да го издирват активно. Получили писмо от хазаина, че д
15.09.10г. трябва да освободят квартирата, а така също и няколк
обаждания за неплатени лизингови вноски за закупен от сина им лаптоп
На посочената дата те отишли в София, където намерили сина си да сп
в квартирата. Отказвал да говори с тях, бил груб и хладен. Събрали м
багажа за да се върнат в Троян, той ги оставил пред квартирата по
предлог, че е зает и заминал някъде с такси. След завръщането в Троя
отказвал да контактува с родителите и с други познати. Затварял се п
цял в стаята си, отказвал да се храни заедно с тях. Напускал дома си бе
да дава обяснения къде ходи и кога ще се върне. Промяната
поведението му била констатирана и от съседи и приятели н
семейството, които Данчо подминавал като напълно непознати. Пр
отправени забележки от страна на Майката „започвал да ягледа лошо"
Навсякъде ходел с преносимия компютър. Гледал телевизия от око
метър разстояние, заключвал и по няколко пъти проверявал входнат
врата дали е заключена. Непосредствено преди намесата на полицият
започнал да говори несвързано, смесвал спомени от детството с наскор
случили се неща, употребявал много компютърни термини до степен н
неразбираемост.

Exposing the Solarwinds Malware Campaign - An OSINT Analysis (2020-12-27 11:06)

It has recently became evident that the Solarwinds enterprise which is basically an IT

monitoring and management tool suffered a major backdoor attack where malicious

attackers managed to obtain access to and actually backdoor a decent portion of Solarwinds infrastructure potentially compromising key network assets and compromising the integrity

confidentiality and availability of the targeted infrastructure to a variety of malicious software

attacks.

In this post I'll discuss in-depth the attack and offer an in-depth technical and OSINT analysis

on the campaign including to actually provide TTPs (Tactics Techniques and Procedures) of the

cybercriminals behind it.

Malicious malicious files known to have participated in the campaign:

SolarWinds.Orion.Core.BusinessLayer.dll; netsetupsvc.dll

IN-DEPTH OVERVIEW AND ANALYSIS OF SECURITY BLOGGER DANCHO DANCHEV'S SECURITY RESEARCH FOR ZDNET'S ZERO DAY BLOG CIRCA 2008-2012

BY DANCHO DANCHEV

Dear blog readers,

I’ve decided to let everyone know that I just released an official security research compilation

for all the blog posts that I did for ZDNet’s Zero Day blog circa 2008-2012 with the idea to make it easier for everyone to catch up in terms of what I've been up to in terms of research

throughout that period of time in multiple E-book format full offline copies.

Grab a copy from [2]here.

Dancho Danchev's Security Research for Webroot Inc - Official Multiple E-Book Formats Compilation (2021-01-01 05:28)

Dear blog readers,

Do you remember my work for Webroot Inc. which was my ex-employer 2012-2014? Great

news. I’ve decided to make an official offline multiple E-book formats official security research

compilation of all the blog [1]posts that I did for Webroot Inc. throughout 2012-2014 with the

idea to make it easier for my readers to catch up in terms of what I’ve been up to in terms of

research throughout 2012-2014.

— Условия конкурса

Конкурс длится 20 недель (С 16.06.2008 по 02.11.2008) и состоит из нескольких этапов:
- недельный топ
- месячный топ
- общий топ

Недельный топ

Топ составляется из вебмастеров, которые заработали максимальное количество денег за прошедшую неделю (с 00.00ч понедельника по 24.00 воскресенья).

Один из 20 вебмастеров, вошедших в недельный топ, получает бонусные $150 к выплате. Победитель определяется случайным образом. На 3XL.cash и 3XL.software топы разделены, поэтому $150 получит один из вебмастеров недельного топа на 3XL.cash и один из вебмастеров на 3XL.software.

Месячный топ

Кто мы?

Кроме того, что мы уже не первый год делаем партнерские программы для ВАС, мы такие же вебмастера как и Вы. Нас волнуют те же вопросы. Как получить максимальную доходность со своего трафа? Как получить стабильный доход? Мы знаем что для Вас важна постоянная поддержка продукта, мы прекрасно понимаем что Вы хотите получать деньги стабильно.

Что мы предлагаем?

В основе нашей партнерки лежат старые темы (кодеки и софт, в ближайшем будущем платники и другие интересные предложения), которые мы сумели скрестить в общих промо и получить отличные результаты от такого симбиоза! То есть за счет того, что серферу на разных этапах предлагаются различные решения, это приводит к продаже или установке с большей вероятностью. Соответственно выхлоп с одного и того же трафа значительно вырастает, в отличие от ситуации, когда

Почему 3XL?

Мы не обещаем Вам мегаконверт и супервыхлоп, но наверняка сможем дать Вам больше, чем Вы получаете сейчас. Кроме стандартных промо, мы точно предложим Вам новые оригинальные решения для продвижения наших продуктов, которые позволят получать хороший выхлоп с любого трафа!

Так же мы гарантируем Вам круглосуточную поддержку! Мы даем обязательство, что оплаты у нас будут проходить строго в дни, обозначенные в правилах! Чтобы не быть голословными мы даже готовы нести финансовые потери со своей стороны в случаях, когда не сможем во время ответить на Ваши вопросы!

В случае, если Ваш тикет висит без ответа более часа, то в ближайшей выплате Вы получите 50$ за наш промах. Если вдруг мы задержали выплаты, мы готовы отдать Вам еще 1% к вашей выплате за каждый день просрочки.

Стабильное сотрудничество!

In order for us to be able to track the installations you perform, you need to use an installation file which is tagged with your Affiliate ID (and, optionally, Tracking ID if you want to track installs for each of your sites individually). The tagging of the installation package is done automatically, so in order to get the installation files, you just need to specify Tracking ID (optional) and request them, by clicking the Request Install Files button below.

The installation files are available as either a .exe or a .dll.

To install from DLL execute the following command:

```
rundll32.exe <name_of_dll>.dll,Start
```

The status of your requests can be seen below. If you have problems with your Installation Files downloading, please contact your affiliate representative.

Лучшим партнерам — лучший отдых!

— Условия конкурса

топ 20

Конкурс длится 20 недель (С 16.06.2008 по 02.11.2008) и состоит из нескольких этапов:
- недельный топ
- месячный топ
- общий топ

Недельный топ

Топ составляется из вебмастеров, которые заработали максимальное количество денег за прошедшую неделю (с 00.00ч понедельника по 24.00 воскресенья).

Один из 20 вебмастеров, вошедших в недельный топ, получает бонусные $150 к выплате. Победитель определяется случайным образом. На 3XL.cash и 3XL.software топы разделены, поэтому $150 получит один из вебмастеров недельного топа на 3XL.cash и один из вебмастеров на 3XL.software.

Месячный топ

Bucks Loads

Будьте уверены - вы загружаете именно баксы ;)

Почему именно мы?

Это просто как 2*2=4: наши модули * ваш траффик = $$$;)
Кроме того мы платим 5% от заработка каждого привлечённого вами вебмастера (Гринеуд, не зевай!) и присоединившись к нам сейчас вы можете заработать ещё и на рефералах!

Наши промо тулзы?

$ Тематические видео галереи $
$ Видео галереи случайной тематики$
$ Тематические видео страницы $
$ Видео страницы произвольной тематики $
$ Тематические тьюб сайты $
$ Миксовые тьюб сайты $
$ Особые предложения для особых вебмастеров ;) $
$ и много чего другого, что обсуждается с суппортом! $

Для тех кто продаёт софт

Наше решение не мешает вам продавать софт и не портит конверсию, принося неплохие деньги, а при чистом траффике солидные деньги помимо других решений.

Выжми максимальную прибыль из своего трафика!

Buckster.ru - самый удобный инструмент для выгодной конвертации мусорного трафика. Зарегистрируйся и проверь!

Что такое Buckster ?

Buckster.ru - партнерская программа для конвертации "мусорного" трафика с поисковиков. Наша цель - всеми возможными легальными способами помочь вебмастерам получить максимальный доход от своего трафика.

Регистрация

Как работает Buckster ?

Благодаря агрессивным промам* и продуманному маркетингу, мы успешно продаем софт не целевым пользователям. Тематика трафика не важна. Главное, чтобы трафик был из страны, где кредитка - основное средство онлайн платежей. Трафик можно отправлять редиректом с дорвея, показывать промо на дорвее и через экзит. По результатам нескольких месяцев тестирования мы можем гарантировать отличный результат на американском и канадском трафике, однако европа тоже хорошо конвертится.

*Промо - рекламная страница софта. На этой странице пользователю сообщают о необходимости срочно скачать софт и очистить свой компьютер от грязи. пример...

Конвертируйте трафик с нами!

BucksWare.com предлагает вам сконвертировать ваш трафик на продаже софта.

В данный момент мы предлагаем два типа продуктов: antispyware software – софт, защищающий от вирусов, spyware, adware и прочих вредоносных программ (отлично конвертируется на любом типе трафика) и privacy protection software – софт, который помогает пользователю скрывать «улики» своей активности за компьютером (прекрасный вариант для адалт-трафика).

Как все это работает

Схема работы довольно простая:

1. Мы предлагаем вам ссылки на промо-страницы с рекламой софта, куда вы направляете ваш трафик.
2. Благодаря довольно убедительным методам агитации посетителей на промо-страницах, пользователи понимают, что им ничего не остается, как скачать и установить пробную версию нашего софта.
3. Попробовав пробную версию, уже довольно быстро многие решают приобрести лицензию на версию с полным функционалом, за что вы и получаете оплату.

Регистрируйтесь, чтобы начать уже сегодня!

Our programs

We have a wide range of different programs that you can promote through the Cash4downloads affiliate system. Each program is briefly presented below. Once accepted into Cash4downloads you will also have access to marketing tools and banners ads to promote each program easier.

DRM-Marketing programs

These program all has an unique, built in, Digital Rights Management (DRM) functionality which offers you as a webmaster an even greater opportunity to increase your revenue. The idea behind all these programs is that you can encode/protect your content so that it only can be viewed with our program installed on the users computer. That way you have a guaranteed income every time someone wants to use your website!

Media Player/Codec

ZePlayer (adware) and DomPlayer (micropayment) are advanced Media Players that can play both video and music files with excellent quality. They can play all common formats available today, but also a unique format that can be played only in our players. Our affiliates have access to a Media conversion tool that can convert music and video files into this format. Users trying to play converted files in a different player will be directed to ours instead and generate income for you! In addition to the players we also have a codec available based on the same technology.

Compression tool

Programs that can compress and archive files have always been popular on the Internet. Most of the current compression tools on the market costs money. We have developed a free alternative, WinZix (adware) and a cheap alternative WinZix Pro (micropayment)! An excellent way to advertise WinZix is to compress your own files into this format and then earn money every time someone downloads it.

Web player

Our webplayer, KillPlayer (adware), is a media player

Category targeted programs

The below programs has been developed to be distributed in specific categories of websites. They may work well on all websites but they have proven to work extremely well if distributed within the meant category.

Torrent websites

Torrents have become an Internet standard for download files online. Cash4downloads has quickly followed up on this with two new products. We both have two popular Torrent clients, BitRoll (adware) and TorrentX (micropayment), that can be used for downloading torrent files quickly and easily. We also have a Torrent Speeder program (coming soon), a tool that can accelerate and optimize a computer to download torrent files as quickly as possible. Both these tools are excellent to advertise on torrent and download related websites.

File archive websites

See the *Download tools* and *Compression tools* to the left under DRM-marketing programs. These will work very well on all websites with file archives.

our program

Cash 4 Toolbar is a one of a kind affiliate program! There is no traffic that we cannot convert on. With over nine years of combined experience in the internet business we have built a program that is virtually one of the easiest ways to make money with. You must have heard this sentence many times before, but we tell you why it is true with us. The way our program works is that the surfer will see an active-x prompt and if they click yes it will install a toolbar on their computer and you get paid! It's that simple. At the same time you get recurring money and traffic back as well. Many pay-per-install programs hijack affiliate codes which is the only way they can pay you, but with us we assure you no hijacking of affiliate codes will be done! We have worked on our program for many months to make sure we can afford the rates we pay and if you don't believe us click here to install the toolbar and check your hosts file or any file whenever you want and you will see nothing of that sort! We make our money with the toolbar, users start page, as well as contextual pops.

With our program you get the following:

PER INSTALL
We will pay you $0.15 per install for United States, United Kingdom, and Canada as well as $0.01 per install for all other countries.

TOOLBAR LINKS
When the user installs the toolbar it will carry your sponsor codes 25% of the time so the more installs you get the more money you make with the toolbar itself in the long run.

TRAFFIC BACK
When the surfer installs the toolbar they will also have a new bookmark in their favorites which will go to a website of your choice and the name as well. Over a period of time you will find yourself getting a constant flow of traffic to help you grow your website with new visitors all the time!

REFERRING WEBMASTERS
We will pay you 10% of all commission made by webmasters you refer to Cash 4 Toolbar.

Our goal is clear and simple! We want you to make money from your traffic in a way you would never have thought of. Signup... get the code... put it on your website... start making money within seconds!

Don't believe us? click here to signup and we will prove it to you!

WELCOME TO OUR COMPANY!

Are you are a software developer, distributor, publisher or webmaster? Earn revenue off your web traffic with download4money.com

We will pay you every time our software is installed. Just sign up with our company and implement the code we provide and get started earning money.

Yes, it's that easy! Try it and see for yourself! Download4money offers you the best tracking, payments and service you will find on the Internet.

OUR PROGRAMS

There are two ways you can promote:

1) ActiveX. This solution works well for webmasters with a content website. Once you have added our code to your page(s), an ActiveX window will pop up and prompt the surfer to the choice of installing our software. If the surfer clicks 'Yes', the software will be installed and you'll get paid.

2) Software bundle (exe). You own a software application and want to keep it free for users, but still gain some money for further development? Here is the solution. You bundle your software application with our small application and make money for every install.

About Golden Cash

GoldenCashWorld it not simply next pay-per-install program, it is the company that won big part of the market, but not in public. Our adverts are people which receive maximum money from their installs. We don't shave at all, our stat is true 100%, and we have individual support for big adverts. The number of our support staff grows every day, so we can solve any problems in a very short time, if you have it during working with our programm. You can make installs for us even if You install another pay-per-install programm, our soft won't conflicate with it. Payments are maid by: WebMoney, Fethard, e-gold, Western Union, Wire and other payment systems (minus comissions of exchange). You can join our partner program right now and start making money!

InstallsForYou - это приемлимые цены, оперативность, надежность и быстрая скорость отгрузки всех стран.
Имеются разные предложения для Вашего бизнеса, для крупных заказов предусмотрена удобная система скидок.

Дружелюбный саппорт поможет Вам сделать заказ, оповестив вас об имеющихся в данный момент предложениях и ценах.

Мы имеем довольно жесткую систему уникальности за 30 дней, поэтому повторения мало того что исключены, но и фактически вы получите больше загрузок чем заказывали.

В случае если ваш бот/софт по какой-либо технической причине не работает, а обязательства с нашей стороны выполнены, заказ оплачивается в обычном режиме.
Даже если возникла спорная ситуация, то мы сможем вместе проверить на простейшем лоадере кол-во загрузок.

(Рекомендуется проверять екзешник до начала отгруза или оповестить саппорта с просьбой отложить заказ на определенное время,необходимое для устранения неполадок.Обычно неправильная работа бота выявляется в течение первых минут с начала отгруза)
исключения: Мы не грузим antispyware програмы, а также партнерские програмы

InstallsForYou - это приемлимые цены, оперативность, надежность и быстрая скорость отгрузки всех стран.

Имеются разные предложения для Вашего бизнеса, для крупных заказов предусмотрена удобная система скидок.

Дружелюбный саппорт поможет Вам сделать заказ, оповестив вас об имеющихся в данный момент предложениях и ценах.

Мы имеем довольно жесткую систему уникальности за 30 дней, поэтому повторения мало того что исключены, но и фактически вы получите больше загрузок чем заказывали.

В случае если ваш бот/софт по какой-либо технической причине не работает, а обязательства с нашей стороны выполнены, заказ оплачивается в обычном режиме.
Даже если возникла спорная ситуация, то мы сможем вместе проверить на простейшем лоадере кол-во загрузок.

(Рекомендуется проверить екзешник до начала отгруза или оповестить саппорта с просьбой отложить заказ на определенное время,необходимое для устранения неполадок.Обычно неправильная работа бота выявляется в течение первых минут с начала отгруза)
исключения: Мы не грузим antispyware програмы, а также партнерские програмы

LuxeCash is company which is open only for serious webmasters with quality traffic. If you have products that are downloaded 1000 times per day than you can realy get rich if you bundle their simple code with you product. You can earn more with them if you have quality installs and those installs make money. They dont want to loose their profit but also they want to keep you as their webmaster so they pay you as much as they can afford. You need to be in close contact with them through ICQ to get customised rates. I can not tell you how much you make because each website is getting different money for different content. Sign up and start making money with its unique pay per install program. Payments are sent on time and support is online most the time to help you. There are numerous payment methods: e-gold, epassporte, paypal, moneybookers, fethard, check, bank wire. Payments are send twice a month.

Highest & Fastest Payouts in the World!

Did you know that most pay-per install programs only pay for countries they want to? **SnapInstalls pays for every major country in the world!** We believe in paying the highest and realistic rate we can offer to our PARTNERS over the long-term. Depending on whether you're a software-developer, or web-master or a distributor, SnapInstalls believes in counting accurately and paying on time every pay period. Did you also know that other programs promote being the highest paying companies in the market, but when it comes to their reporting and getting paid, they cut back on the total amount of installs, so they don't have to pay you for what you delivered!!! Therefore, not only are exploying faulty advertising, they are also reducing their actual payout by increasing the discrepancy between what you delivered and what they are counting. BUT NOT HERE AT SNAPINSTALL - WE BELIEVE IN PAYING YOU FOR EXACTLY WHAT YOU DELIVERED!

Quality Content - Great Alternative to Traditional Advertising Media

SnapInstalls believes in high quality content, and is constantly rotating and adding new offers into the system. We stay current with market trends and needs and do our very best to make sure this FREE content is available to you and your website audience. Your audience or user-base will be extremely satisfied when have the ability to choose between search products, games, screensavers, new widgets - the list continues to grow and go on and on... SnapInstall easily allows you to offer an alternative advertising media to your audience! SnapInstall will have the right Program for you...

Best Reporting System & Technology - Making Easy to Use!

SnapInstalls uses a reporting system second to none. Whether counting a specific country, or daily, real-time count, or total revenue earned for the day - SnapInstall uses a sophisticated reporting a patent pending technology - called SnapAccurateIt/Is! SnapAccurateIt/Is was designed specifically with you in mind. No more, no less. Every install counts, where it originated, and tally's that count accurately to the penny every minute, or every day. You

✓ Get paid up to $0.30 per install!

✓ Follow your counts and revenue through the patent-pending SnapAccurateIt/Is Reporting Technology!

✓ Signing up is the easiest thing to do, so don't wait - it's easy and automated!

Мы предлагаем Вам УНИКАЛЬНОЕ решение для конвертации трафика любой направленности и любого происхождения. Мы выжимаем из трафика максимум столько, сколько это возможно. Наша партнерская программа может послужить Вам как основным источником прибыли с вашего трафика, так и дополнительным – Вы можете сливать мусорный трафик с ваших ресурсов или дополнительно грузить наш рекламный софт. Только с нашим гибким решением, Вы сможете делать от 12$ с 1к трафика любой направленности, и это минимум. При правильном подходе можно делать до $30-40$ с 1к трафика и $250-$300 СТАБИЛЬНО с 1к инсталлов. Заметь, что мы учитываем весь трафик и загрузки! Никаких "уникальных загрузок". И это не пустые слова, мы ГАРАНТИРУЕМ Вам стабильный доход.

1 Кто мы

Нет, мы не очередная партнерка рекламирующая услуги сторонних рессилеров, которые в свою очередь рекламируют услуги других рессилеров и так далее по цепочке. Мы являемся официальным дистрибьютором предлагаемого решения для конвертации трафика. Наш рекламный софт разрабатывается с 2006 года и дорабатывался в течение полутора лет, чтобы достичь максимальной эффективности. За это время произошло очень много изменений, несколько раз переписывали все заново. И вот теперь мы рады предложить Вам ЛУЧШЕЕ adware решение.

2 Коротко о главном

Наш софт представляет собой функциональную adware систему, которая при запуске начинает работать в операционной системе, не мешая работе пользователя, но тем временем принося Вам прибыль день ото дня. Софт промоутит различными способами антиспуware продукт, который в свою очередь гарантирует Вам процентный доход от загрузок. Сам антивирусный софт построен на принципе агрессивного маркетинга, НЛП и других методах воздействия на пользователя. Стоимость лицензии $49,95. Вы получаете $22,00 с каждой продажи! Среднее ратио на ADULT USA загрузках 1:136, на трафике же 1:998. Итого Вы можете

3 Зарегистрироваться сейчас:

Мы предоставляем Вам:
- Полностью настроенный эксплойт под Ваш аккаунт, который ведет себя незаметно и не распознается антивирусными программами.
- Настроенный софт под этот эксплойт, а также прямые ссылки на exe-файл, который полностью невидим в системе и не нагружает ее, а мирно приносит Вам доход день ото дня.
- Видео-кодек, если Вы не хотите использовать эксплойт. Очень полезно для владельцев CJ-ресурсов.
- Баннеры для промоута софта.
- Онлайн-сканер с элементами агрессивного маркетинга, при помощи его Вы можете

4 Наши преимущества:

Любые виды промо-материалов для любого трафа: кодек,эксплойт,прямой exe,онлайн сканер.
- Вы получаете 44% с каждой продажи
- Софт полностью безобидный: не грузит систему, ничего не качает, не зависает, не конфликтует с другими прогами и лоадерами.
- Удобная статистика, Вы всегда видите сколько пришло посетителей, загрузок и их страны.
- Выплаты каждые две недели – 4 и 19 числа: Webmoney/ePassporte/Wire (для крупных выплат)
- 5% от прибыли каждого привлеченного Вами партнера.

20$ за продажу av.

** Если вы хотите получать 25$ с продажи - стучите, сделаем персонально для вас повышенный рейт* ***за счёт повышения цены на продукт*** *но,на мой взгляд, это НЕ рационально(тестили).*

Мы даем из инструментов:

** exe-лодер трех видов:*

- exe который при запуске выдает ошибку юзеру что файл битый.

- exe для ботнета/загрузок, который крепко ставится в систему и делает свое дело пока юзер не купит.

- exe для ботнета/загрузок, который удаляется с машины через 3 дня. (по статистике проды идут в первые 2-3 дня).Этот exe для того чтобы через 3 дня после прогрузки вернуть очистить ботнет от спайварии. =)

** Всем желающим соберем связку сплоитов для вашего iframe трафика.* 3 вида промо веб-сканеров под ваш редирект траф.*

** холд 14 дней (напр. за 1-7 число выплата 21).Антифродовые условия биллинга.*

** 10% с заработка рефералов(неограниченое число инвайтов).*

[illegible]

Лёгкий exe без потери эффективности не напрягает машины и не убивает ваши золотые их боты. Наш лоадер дружелюбно прогрузится вместе с вашими формграбберами, подменой выдачи и т.п. Регистрация

Are you a webmaster who wants to get the maximum profit from his sites? Do you have a lot of "garbage" traffic? We offer you a way to convert any traffic you have and get additional profit for the traffic which you couldn't convert anywhere else!

There are three easy steps to make to start earning with us:

› Register at our adware affiliate program;

› Grab your link in the member area;

› Start sending your traffic to your link;

›

As a rule 1000 unique IP's sent to our links will bring you up to $15 profit!

Don't forget about referrals earnings. Our affiliate program will pay you 5% of your referrals' earnings.

There is one more important thing about our program - you won't stop earning even when you stop sending traffic to us! Once installed our software will keep making you money for weeks.

XEDANT HUMAN EMULATOR - ПОЛЕЗНЫЙ SEO-ИНСТРУМЕНТ

Сперва самое главное: программа делалась "под себя" и реально используется внутри нашей компании. На 100%.

Мы ежедневно собираем данные с сайтов, сабмитим софт по софтовым архивам, сайты - по директориям. Пробовали и iMacros, и AutoHotKey, и "чистый" PHP. В iMacros и AutoHotKey не хватает гибкости PHP, в PHP - простоты использования и отладки скриптов в браузере.

Вот так и появился Xedant Human Emulator - Internet Explorer, "обернутый" в PHP. То, что раньше отнимало день-два, теперь делается меньше, чем за час. Если раньше изменение дизайна сайтов или расположения кнопок/полей ввода в формах "сайтов-доноров" выбивало из колеи на пару дней, теперь подобные проблемы решается "на

ABOUT

YA!BUCKS is pay-per-install affiliate program.

Unlike others we not paying fixed rate for install and not shave installs. We share our profit with you. Yes, that's true - we really giving you a share - 70% from revenue. Our software can live a lot of months on user PC's and you earn money every day and every hour, doesn't matter - if you already stop sending installs - you still earning money with us. In typical pay-per-install partnership programs everyone get same CPD, in this case some affiliates(with "bad quality" installs) become banned after few days(weeks, months) and without payout, and some affiliates(with "good quality" installs) not receiving as much money as those installs really costs. And PPI company closes business after some time(we know a lot of samples). Only revenue share model is really fair and can bring really big revenue to affiliates. That's all what we can say. Now - you can join us and try it or leave our site - it's up to you, but we suggesting - give us a try and you will be amazed with results!

WHAT WE CAN DO FOR YOU?

- 75% REVSHARE
- SOFTWARE LIFETIME PAYOUT
- MONETIZING ALL COUNTRIES
- BI WEEKLY PAYMENTS
- UNDETECABLE SOFTWARE
- SUPPORT VIA TICKETS
- FREE TOOLS FOR OUR PARTNERS
- DIFFERENT LANDINGS
- 10% REFERRAL COMMISIONS
- AND MUCH MORE!!!

Dancho Danchev's Biography - The Inside Story Behind the Life of ex-Bulgarian Hacker

Dancho Danchev - Recommended Reading! (2021-01-13 04:41)

Dear blog readers,

I’ve decided to take the time and effort and say big thanks to everyone who’s been following my

research since December, 2005 and has been touching base to say "hi" or to offer operational

support or to share their "know-how" and opinion about the research that I’ve been publishing

on my personal blog.

I’ve recently posted a high-profile and recommended reading article at my Medium account

which you can check out [1]here. The article is basically a first-person account of my life and

experience as an ex-Bulgarian hacker today’s World’s leading expert in the field of cybercrime

Dancho Danchev’s Keynote at CyberCamp 2016 - "Exposing Koobface - The World’s Largest Botnet" - Recommended Watching! (2021-01-13 16:01)

Dear blog readers,

I wanted to take the time and effort and let everyone know that you can now watch my keynote presentation from CyberCamp 2016 on the topic of "[1]Exposing Koobface - The World’s Largest Botnet" and actually get a bigger picture in terms of my research into the workings of the [2]Koobface botnet where I was once the primary source of information on the way it used to work and eventually contributed to its demise by publishing personally identifiable information on one of its botnet masters potentially assisting U.S Law Enforcement on its way to track down and prosecute the cybercriminals behind the campaign.

Stay tuned!

From "The Underground" With Love - A Compilation of Cybercrime Underground Chatter Referencing My Research (2021-01-13 16:30)

Dear blog readers,

I’ve decided to make a quick compilation of underground chatter including references of my research courtesy of high-profile cybercriminals internationally with the idea to raise awareness

on their existence and to provoke more researchers to dig even deeper on their way to track

down and prosecute the cybercriminals behind these campaigns.

going to far my ass. If he is helping authorities by putting people behind bars for 1+ years, he better be ready to get whacked. Fucking drug dealers kill people, and they only face 1-2 years (without the murder of course).

About five years ago zlimbie had published a very interesting open-letter from his underground friends (exUSSR) doing xx-:xx affairs. In that letter unknown guy ("capo", using exCarderplanet level of rank) and Whale/29A said KAV = narkshit and this company doesn't deserve any respect, they are all stupid lame. Guys have asked a rhetorical question to themself, something like : "What should we do? Probably, collect some money for physical counter-strike....I have 10K for start and my niggaz will help us. Kasper, don't do that shit in newspapers where you are using unpatriotic, jesuit far-fetched allegations through yellow horror stories which sounds like "Russia is a citadel of Cybercrime! We are your saviours!" Anyway, I don't think that someone from blackhats has realized such kind of RL crime because kidnapping has serious consequences. Probably, if it's not a PR, this situation was due to really mad criminals (we can't exclude an internal battles between serious persons). Kasper started his early career from KGB then founded company of the same name, he has connections in government and federal security service, so only mindless or big-handed criminals can force him by kidnapping.

it's probably not related to kaspersky as the company at all, here they usually just kidnap people that run successful business so they can make a lot of money of it, if it was related to kaspersky as a company they should just have kidnapped eugene himself

kasper lives in Englang and visiting Moscow periodically. Btw, story got a happy end as they said, so I think it was a PR.

GpCode is the name of a ransomeware. I think organized crime is behind this, there is no other logical reason in my mind. He has has been snitching on people and stuff like this, it is only a matter of time before it will catch up with you. I can tell you now i wouldnt like to be kidnapped by some angry russians.

R.I.P Dancho Danchev?

so it's been over 2 months since anyone heard from him, i saw some tweets by Mikko Hypponen where he asked danchos buttbuddy Ryan Naraine if he heard from him, and the reply was:

"ryanaraine: @mikkohypponen we've been trying to reach him for several weeks. no answer anywhere. very strange and worrying."

so what you guys think have happend? my theory:

he pissed someone off with his blogposts, and made the revenue from someones rogue av schemes go down so some russian assassin came to him wherever he lives, ripped his heart out with a fucking hadouken punch and buried him somewhere in siberia

does anyone have some other theories?

C&C ARCHITECTURE

Compared with the complex C&C architecture of the Storm, WALEDAC, and DOWNAD botnets, the KOOBFACE C&C infrastructure is very basic. It only consisted of infected nodes and C&C domains that used HTTP as its communication protocol.

Figure 41. Updated KOOBFACE C&C as of July 19, 2009

This simplistic C&C approach is, of course, very vulnerable to takedowns. After several KOOBFACE C&C takedown attempts initiated by Internet service providers (ISPs) and members of the security industry,[3] the KOOBFACE gang realized the need for a more robust C&C infrastructure. Thus, on July 19, 2009, the KOOBFACE writers implemented a new C&C architecture that involved the use of proxy nodes to provide redundancy and to improve the survivability of their C&C should another takedown be attempted.[4]

A few days after the new KOOBFACE C&C infrastructure was implemented, the botnet was seen inserting a message (see below) for one of the security researchers tracking the malware's domain activities.

white hat info

fellow members of dk i call upon thee to feed thy brother with useful information.

i need:
list of "white hat" type certificates, and their abbreviations (ex: cisco, CEH <<lol)

a list of "white hat" forums, like, virustotal, malware domain list, offensivecomputing etc.

and some "white hat" conventions

that is all.

Hello

My name is __________, I'm a whitehat

To start off I'll give a shoutout to Mikko Hyppunen & Dancho Danchev for keeping it real

I have cerificates in Botnet Takedown 101 & OllyDBG for Dummies, I'd love to discuss the evilness of blackhats with some decent whitehats and also receive samples of the latest threats, thanks, bye

Dear blog readers,

I’ve recently came across to a high-profile study entitled " *[2]Acing the IOC Game: Toward*

Automatic Discovery and Analysis of Open-Source Cyber Threat Intelligence" which is actually

including my personal blog and is referencing me as a high-profile and valuable source of threat

intelligence and cybercrime research and I’ve decided to touch base with my blog readers

in terms of soliciting possible security event and security conference invitations where I can

attend and make a presentation on a variety of topics.

Are you possibly somehow interested in having me attend your event and make a presentation

on a hot topic? Approach me at dancho.danchev@hush.com

Rogue "Malware Spreading Security Researchers" Launch Malicious Social Engineering Campaign Against Legitimate Researchers - OSINT Analysis

(2021-02-04 16:55)

Security researchers from Google have recently [1]spotted and properly analyzed a currently

circulation malicious software spreading social engineering driven malicious campaign that’s

actively interacting with legitimate researchers on social media and private channels for the

purpose of tricking them into testing a newly discovered zero day flaw which in reality drops

malware on the affected hosts and phones back to a C &C server potentially attempting to

compromise the researchers in question.

Sample screenshots of the campaign currently in circulation:

what messenger do you use?

this talk contains some sensitive infos

use discord?

12/08/20, 9:43

I am sorry. I am not able to talk.
If what you want to share is a vulnerability/or contains sensitive information then take extra care.
If it is too technical I would recommend you to talk to a trusted windows kernel guru.

FBI Shuts Down Radical Propaganda Online Web Sites - An OSINT Analysis

(2021-02-04 16:56)

[1]

The U.S Department of Justice in direct cooperation with the FBI has recently [2]shut down

a network of propaganda Web sites courtesy of what appears to be the Liberty Front Press

network.

In this post I’ll provide actionable intelligence on the infrastructure behind the campaign and

discuss in-depth the tactics techniques and procedures of the individuals behind it.

Profiling a Currently Active Portfolio of High-Profile Cybercriminal Jabber and XMPP Accounts Including Email Address Accounts - Part Three (2021-02-16 03:44)

Dear blog readers,

It’s been a while since I’ve last posted a quality update following the announcement of my currently active Law Enforcement and OSINT operation called "[1]Uncle George". Ever since I’ve originally announced it I’ve distributed the data set to a variety of researchers and vendors on their way to assist in possible enrichment and data mining of the data set potentially assisting in the disrupting the rogue cybercriminal operations launched on these cybercrime friendly forum communities potentially assisting U.S Law Enforcement on its way to track down and prosecute the cybercriminals behind these campaigns.

6276

In this post I’ll provide yet another data mined collection of personally identifiable [2]high-profile cybercriminal XMPP/Jabber and email addresses with the idea to assist U.S Law Enforcement and the security industry on its way to track down and prosecute the cybercriminals behind these communities.

Here’s a currently active XMPP/Jabber including email addresses list of high-profile cyber-

criminals part of my currently ongoing Law Enforcement and OSINT operation called "Uncle

George":
